NEW YORK, June 2.—Conditions of spegulation in stocks were unchanged to the special price moves and the special price moves. spegulation in stocks were unchanged to-day. The only conspictous price move-ments were in specialties, mostly of the obscurer kind. Some of the high grade stocks were affected. The group of low-grade, non-dividend payers, which suffergrade, non-dividence payers, was ne-ed from liquidation yesterday was ne-glected to-day. Such as were dealt in were inclined to recover. The general market was inert and the day's small trading did not after materially the level of The news of the day was not important, but it offered little to change the opinion of doubt and uncertainty U. The report of the April carnings of the Pennsylvania was a depressing factor and had some Spucial effect on that stock. Failing off in net returns both east and west of Pittsburg and Erie was accepted as conclusive of the condition of railroad used of the region affected. Wall Bt retarding in the region affected. Wall Bt retarding with equanimity the declining tendency in cotton market as promising a better adjustment to the needs of the cotton findustry. But so sudden a drop as that of to-day and the presumed speculative losses involved by the uncovering of stop long holdings by the uncovering of stop long orders had a somewhat disturbing affect on speculative sentiment.

The closing tone of the market was rather irregular and the day's changes were again insignificant.

NEW YORK, June 2.—The cotton market opened rather steady in tone at a decline of 4g/9 points, and immediately turned sensationally weak under active liquidation that seemed to come rom practically all sources, but which was believed to originate chiefly with New Orieans. Inside of a minute almost Juyhad broken '4 points and continued to decline until it had reached 1151, a het loss of about 5 points. It locked as though over-night calls for additional margins had brought in heavy selling orders, for nearly all the big wire and commission houses were heavy sellers on the

selling orders, for hearly all the 51g wise and decline.

Commission houses were heavy sellers on the decline.

The new crop months ruel relatively steady, be sustained by covering in spite of the selling between the selling pressure seemed to subside somewhat toward the end of the first hour prices railited in a nervous sort of way on covering by room shorts. After selling back to the covering by room shorts. After selling back to the first hour prices of the previous night, however, there was a renewal of selling by houses with New Orleans connections, and with some bear pressure for selling by houses with New Orleans connections, and with some bear pressure for selling by houses with New Orleans connections, and with some bear pressure for selling by houses with New Orleans connections, and are facilities to the selling the selling the selling or selling the selling the selling of selling of selling the selling of selling the selling of selling selling the selling of selling selling selling to selling the selling of selling the selling to selling selling the selling of selling selling the selling to selling selling selling to selling the selling to selling s above 11.36. At this level, whom recommended not decline of 60 points, the market steadled net decline of 60 points, the market steadled alightly, and in the late trading showed some disposition to do better, closing showed, 56710 points up from the bottom, but at a, not decline of 10520 points. Sales were reported of 60,000 bales, or the largest and as business since the exciting times following the Silly collapse. Usual factors were entirely famount, but receipts were moderate, exports small and spet markets generally lower and the factors and spet markets generally lower and the standard spet markets generally lower and the standard spet markets generally lower and the standard spet markets generally lower and the spet specific specific

(By Associated Press.) PHILADELPHIA, PA., June 2.-Detecives of Delaware county and this city re working hard in an endeavor to unavel the mystery connected with the inding of the body of a man on Decoraion Day in the marsh close to the banks Darby Creek. The place where the harred body was found is in a treachrous marsh lying between the Delaware River and Darby Creck, and is ten miles outh of Philadelphia.

On the banks of Darby Creek are scores of boat houses, many of them being the rendezvous of dissolute men and women, who spend nearly every Sunday during the summer months in drinking and carousing. Detective Derry, of Delaware county.

Detective Derry, of Delaware county, does not believe the man was murdered where the body was found, but is of the opinion that he met death in one of the boat houses during a quarrel and that the body was then carried into the marsh. It is evident that an attempt had been made to destroy all evidences of identification by burning the body, and the murderer or, murderers covered their tracks well.

Within a few hundred yards of the spot where the body was found is the farm house of William Horne. On the night of Sunday, May 22d, a rope and two pieces of chain were stolen from Horne's barn. This chain was found close to the body of the murdered man. It had been fastened to fence posts by staples, and, after close investigation, the detectives have come to the conclusion that the man had become involved in a quarrel over a game of cards in one of the boat houses and had been murdered; that his body was chained to the posts, saturated with oil and then set on fire. A two-gallon oil can, comparatively new, and which had been stolen from the Horne residence, was lying close to the charred trunk, winch would seem to bear out this theory. Two suspender buckles, half of a hand, and the toe of a shee are the only means by which the detectives can hope to identify the murdered man.

ence at Mohonk.

(By Associated Press.)

MOHONK LAKE, N. Y., June 2.—The second day's sess.on of the arbitration conference was opened with an address by District Commissioner H. B. F. Mc-Farland, of Washington, on the subject of an arbitration treaty with Great Britain and also with other nations.

John Bassett Moore, of Columbia University, said he hoped that our arbitration treatles with other countries would be more comprehens, we than the one recently concluded between France and Great Britain. Such a treaty between the United States and Great Britain would be, in his judgment, a step backward. He strongly objected to an exception being made of questions of national honor as questions not coming within the scope of arbitration.
